Big Heart

Abby Clapp (10) has always had a big heart for others. She is very caring and continuously goes out of her way to bring joy and happiness to everyone around her.

●●● Every year, Abby saves her money, so she can go to Africa and continue to spread her love to people and children in need. Abby said, "I enjoy seeing all of the kids from previous years and strengthening those relationships, as well as meeting new kids and developing new relationships."

●●● Visiting Africa has made Abby view life differently which has helped her to become the joyful person she is. She said, "Going to Africa has really changed my perspective on life. In Africa, they have so little, yet they are all so happy, and we have so much, yet we take it for granted." "The kids are gaining and learning from us being there, but we also learn so much from them," Abby added.

●●● Abby not only positively influences the people in Africa, but also her friends and family. Sophomore Katrina Smoot said, "Abby is so inspiring to everyone around her. She influences everyone in a positive way through her personality, and has the biggest heart for everyone." Abby continues to be a role model for everyone in her life and is watchful for ways to help out anyone in need.
