ECHO *with* EXCELLENCE

Celebrating 25 years of service, Jefferson Academy has been dedicated to fostering excellence in their students. Just within the past three years, its graduates were awarded 11.8 million dollars in scholarships and had maintained a 100% graduation rate as well. Having attended JA since freshman year, **Caitlyn Martinez '19** agreed that the rigorous curriculum reached the standard of post-secondary excellence. "Courses can be very difficult, but they have definitely showed me what college classes will be like, and I feel like I won't walk into my first class after high school and be shocked." She continued, explaining that "it has also helped me find the best ways to study and use my time wisely."
