

## ECHO *with* PERSISTENCE

Persistence is the ability to continue on despite hard times and being able to see the light at the end of the tunnel. Although many students found academics challenging, they were able to persist through it. Recalling his high school experience, **Ian Eilers '19** stated that he enjoyed spending time with friends, but he "looks forward to college living." Ian's senior experience left him with these words of wisdom: "Don't give up too early. If you give up now then in college you will have a rude awakening 'cause you didn't try at all your senior year of high school. Having it easy one year and then going into the next year is going to be a hard transition to actually trying again."
