ECHOW PROSPERITY

Spring is the time to begin new things and embark on new adventures. Cody Estep and Evalyn Peacey '20 worked hard to inspire themselves and others for this endeavor. Cody wanted to try and work on being more punctual "with homework, waking up, and doing things with a purpose." He also felt that this school helped him prosper by giving lots of post-secondary options. Prospering didn't just mean working on new things for yourself, it also means assisting the people around you. Evalyn supported other people by "sharing opportunities with them, just helping them when they need it, and encouraging them when they don't feel confident in what they're doing."
