

SWE BENEVIOLE BE

we are family By Stephanie Austin

Being a student at Poudre Global Academy is so much more than learning with others in classrooms. It means being part of a community. Working both at home and on campus, each individual has the opportunity to gain knowledge in a hybrid setting, making PGA unique. Together, we celebrate diversity, provide support for everyone that walks through the front doors, and become a part of the journey each student travels.

Teachers and staff work hard every day to ensure a healthy learning environment, even when off campus. They are grateful to be able to be a part of each of their students' lives, making a positive impact and improving their learning.

"The most special thing is that I get the opportunity to learn about and build relationships with every high school student," Mr. James, high school history teacher, said. "I love my students."

Having been enrolling students for ten years, the school itself has grown from strictly online classes, to both online and on campus. Live classes take place two to three days a week for each grade level: elementary, middle, and high.

Jimmy Schmidt, senior ambassador at PGA, finds the school special because of the students themselves. "The people make it unique because there are so many different and new people you meet here everyday," he said.

Thanks to its small size, the campus allows everyone to get to know one another, creating a family away from home. Though it's been open for ten years, PGA will be in each individual's life forever.

DISTINTLY UNIQUESome middle schoolers participate in sports,

others pursue their hobbies, and all express their personalities in unique ways. There's

> something special about everyone. But their best quality? Probably their sense of humor. "This year's

middle schoolers are hilarious, creative, and eager to learn. There is

never a dull moment," Mr.

Vanjonack said. Laughter and smiles are always in surplus for

middle school.
