Students: 1285 | Staff: 177 | Leanne Weyman, School Director

WE ARE STEM

Computers everywhere no matter the subject
ASUS, Mac, DELL, HP, Acer, Chrome
Make sure it's 5 GHz
Schoology, what? Where's Canvas?

Blue Day, Gold Day
Rigorous, Real-world, Relevant
AP, CE; how about ACC,
CU Denver, Metro or Career Wise?
Make it a great day Spartans!

Robots, A+, Cyberpatriot
FRC, NHD, all those late nights
Learning and developing
We Never Stop Innovating!

Receiving awards
finalists for the ARROW
Excellence in technology-enabled learning
Dominating, winning State and Nationals.
Way to go TSA and all those NHD projects!

GOING FOR THE GOAL
David Frost (21) intercepts the ball while playing flag football in Ms.Cryan's class.

FISHIN' FOR PHYSICS During the Fall Physics Games, Kendall Krueger ('23) and Neha Ramachandra ('23) help an elementary student dressed as a shark fish for rubber ducks, ironically.

Award-winning drawings, songs, and plays,
We're more than computers, we're well-rounded!
Volleyball, Soccer, Golf, Cross Country, Cheer,
Lacrosse, Basketball
Yeah that's us, but don't forget art, drama, video
production, writing
We're all these things

We have 37 Clubs
Board games, Fencing, Speech/Debate
FBLA, DECA, Girls Who Code, The Table
Science, Math, Sewing and more

After studying and scoring highest
Sleep in, Relax, Hang out, do nothing
We're a STEM school but so much more
Come see us and you'll know
We're one of the best not just in CO but the US
Go Spartans!

RUNNING DEEP Sophia Lamberson ('22) carries the ball during the powder puff game on September 19, 2018. Lamberson and her teammates played hard but ended up losing to the seniors and sophomores. The game was canceled due to bad weather.

STUDENT LIFE

"I think it's going to be pretty fun, but I think the Sophomores and Seniors are going to win."

-Alex Watford ('21)

"Although school is very important, outside of school I train to compete in horse back riding competitions."

-Ryan Hengen ('21)

"Even though academics are important to me, I would much rather train for the Westernairs or volleyball."

-Kaelin Goss ('22)

DINOSAUR IN SCHOOL In Mrs. Rizzatti's high school biology class, a group member presents the Keto diet in a dinosaur costume. When the dinosaur walked in, the other students in the class laughed and pulled out their phones to take videos and pictures. Through the smiles and laughs, they had to keep order and continue to fulfill their task. The students were presenting what they found out about a fad diet they researched. Their research included the effects of the diet and how the diet functions.

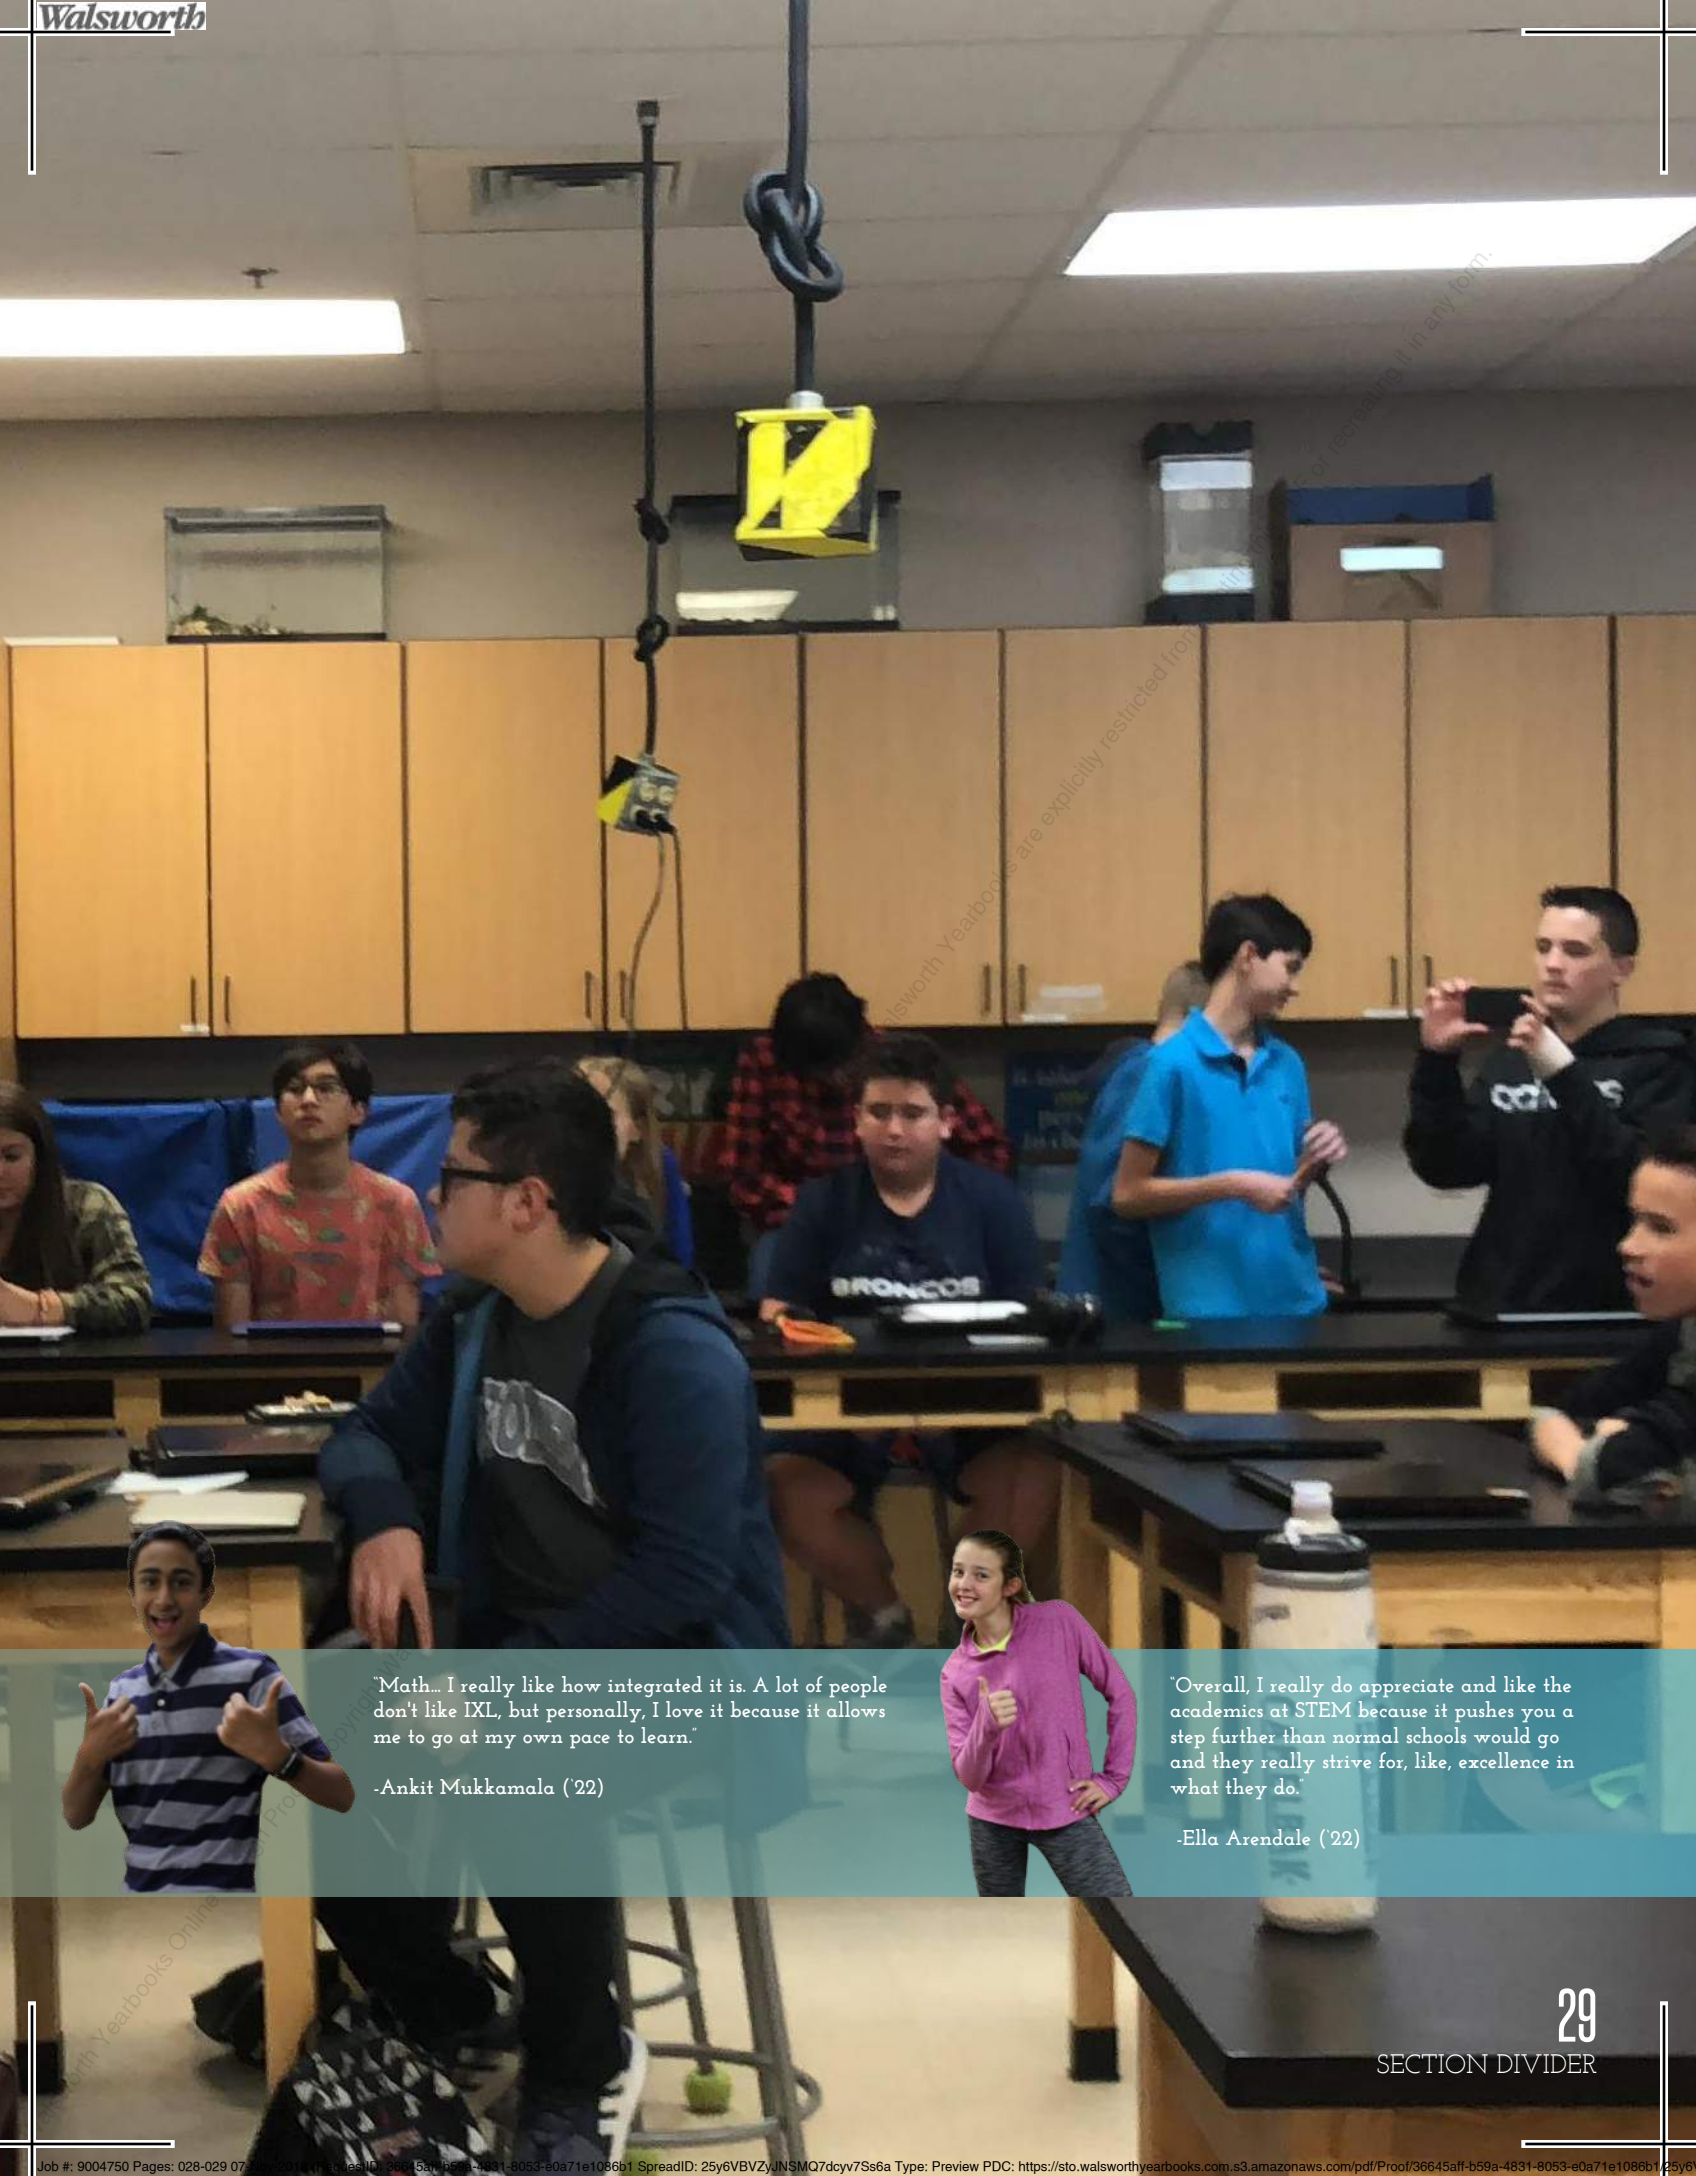

ACADEMICS

"I like my core classes. They challenge me some, but overall, I think they're fun classes with good teachers."

-Rene Vite ('23)

"Math... I really like how integrated it is. A lot of people don't like IXL, but personally, I love it because it allows me to go at my own pace to learn."

-Ankit Mukkamala (22)

"Overall, I really do appreciate and like the academics at STEM because it pushes you a step further than normal schools would go and they really strive for, like, excellence in what they do."

-Ella Arendale (22)

SPORTS & CLUBS

"I enrolled in STEM this year and cross country has been a great opportunity to make friends and have a very inviting experience."

-Olivia Staab ('22)

GAME FACE Preparing for another big game, William Joslin (19) and his teammates sit and study the other team. Joslin played his best that game and had the best of times.

"I am currently participating in basketball and lacrosse. Participating in these sports has given me the motivation to do better in school. Both of these sports have kept me fit and active."

-Matthew Pucheril ('21)

"I've been on the [cheerleading] team for three years and I am now the co-captain. Just being enthusiastic and supporting your school can be exciting."

-Caroline Padilla ('19)

BOWS BEFORE BROS? High school students watch the powderpuff cheer group perform a routine to the popular song "Ice Ice Baby" by Vanilla Ice. The routine left the audience in complete awe.

PEOPLE

"I chose to go to STEM because I love science and I like being able to be ahead in science to help get ready for my future career as, hopefully, a surgeon."

-Bella Martinez ('21)

PASSING PERIOD Middle and high school students cherish the sacred five minutes they get between classes and use the time more for socializing than navigating to the next class. Then, when the bell rings, students battle to get to class, hoping their teachers will forgive their tardiness.

REFERENCE

"Passing period is usually good. It sometimes takes a while to get to my classes because there are a lot of people."

-Caleb Negron ('22)

"Passing period is fine. It is a bit crowded, though."
-Colden Hooley ('22)

"I think passing period has more than enough time to do anything that you need to do."
-Skylar Goodnight ('24)

Creating it in any form.

The year is coming to a close, and it has been a whirlwind of a ride. Changes left and right, whether it be: Schoology, clubs, work AND school, or the adventure of new, more challenging classes. However many changes may have turned the school on its head, we are still STEM Spartans.

Our sports, however small, are still growing. Volleyball, Basketball, Cross Country and many more are getting better and more skilled students every season. Other clubs, however seemingly insignificant, make up our school to include all of our students and their hobbies.

While we may be different, and most definitely unique, our school is just one unforgettable experience after another. From Cegielski challenges, robotic competitions and TSA to pep rallies we won't soon forget...
