

Our story is always progressing and we'll always have something ahead to look forward to. For *freshmen*, the first chapter of high school has just begun. A new library of *possibilities* awaits them, and they can choose which story they want to tell.

For *sophomores*, the page turns to a chapter that is perhaps more difficult, but with more work also comes new relationships and new chances to shine.

Juniors proceed with caution to a chapter notorious for its workload, but moving forward with grit makes them realize how capable they really are. Beginning to make *post-high school decisions*, they start to look ahead to what will perhaps be their greatest leap so far.

For *seniors*, their novel called high school is beginning its end. But this isn't the closure of their story. Like all of us, their chronicles are...

The school year opens the next chapter of our story. *The Back to School Dance* is a colorful start. With its beginning comes opportunities to form new relationships.

Senior Launch Day at The Summit pins down what we'll have to look forward to this year, and who we'll be spending time with.

Spirit Week gives us a chance to coordinate outfits with our friends, and we get to show our Titan spirit as we cheer our team on to victory in the *Homecoming Game*.

We prepare for a year that will bring a heavier academic load than the last, but we know it will be a breeze with our friends by our side.

While it grows colder outside, our story begins to sing inside. The cast and crew of the *Musical* perform *The Little Mermaid* before sold out crowds while choir students bring warmth to a cold night with their *Winter Concert*.

The *Winter Dance* is a small gathering, but one where we enjoyed music with our friends. As we slow dance with that special someone, we hope they've forgotten the ugly sweaters we wore the day before.

We also look for ways to serve our community with *TCA Gives Week* by donating our talents, children's books, and time to those in need.

As we reach the start of a *new semester*, we continue our journey through the school year and begin preparations for what lies ahead.

Regardless of which grade we're in, *Another chapter* is drawing to a close with the end of this school year. For *freshmen*, they have started the road that will take them where they want to be.

The *sophomores* near the halfway point of their high school journey. They earned their place after finishing the synthesis essay, a stressful part of their year.

Having adjusted to the title of "upperclassmen," *juniors* are almost ready to be the kings and queens of the hallways next year.

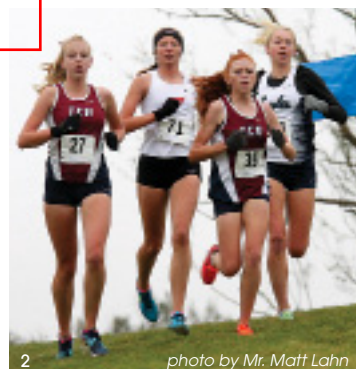

Knowing their time left with each other is short, *seniors* seek ways to spend time together and support each other on the path to graduation.

This year has been full of excitement and challenges alike. *Every page* we turn can bring us closer to our goals, and reaching a *plot twist* is never an excuse to quit. After all, our stories are...
