

Angelica Reyes '19 shoots confetti at the 12th annual Bald for Bucks assembly. The student body celebrates its diversity and community with big school spirit year round.

We *surprised* ourselves. We planned for the future, survived finals week, and still *got that bread*. No one could have guessed that we would *take on* the challenge to beat our *\$100,000* record for Bald for Bucks. No one could have predicted that we would have a school wide music video that took *two hours* and mounds of confetti to complete. But *that's just it*. We are the school that lets loose on Meme Day. This is the place where diversity is *celebrated*. Our community *cannot be bound* to the predictable,  but boundless in our efforts to strive from it.
