

A LOVE OF ANIME Olivia Benton (9) loves Anime with a passion. In addition to reading it she also draws her own Anime characters. "Anime is one of my favorite things in the world. It just helps me and [I really like] how they include Japanese culture in it." Benton said.

LOVE

To geek out

NO WAY...

I set my phone down, this is what I've been waiting for, and now it's here.

The Jonas Brothers are back, my life may as well be complete. My nine year old self is quaking.

C'mon I can't help it I'm their number one fan, and don't act like I'm crazy we all have stuff we can't but help geek out over.

FOR SOME...

It may be Harry Potter. JK Rowling is a pure genius, a goddess, and queen.

Who wouldn't wanna read *The Deathly Hallows* five times?

I mean Harry finally accomplished that BIG goal, you know that one that saved his life?

"After all this time, always?"

FOR OTHERS...

It's waiting anxiously for T-Swift to post her next insta photo, hopefully of Meredith or Olivia!!!

Honestly though, her songs are SO relatable.

I mean who couldn't relate to You Belong to Me or End Game??

FOR SOME...

It's Marvel.

End Game was insane. How could it not be?

This has been in the making for 10 years. I freaking balled my eyes out. I love you Steve Rogers.

you know

WE LOVED IT.
