

LOOKING FOR A JOB?

STARTUP YOUR CAREER

Currently participating and employed through CareerWise, Jordon Monk ('19), Benjamin Roueche ('19), and Reade Webb ('19) are finishing their second year of the program. CareerWise allows students to be employed with actual companies as an intern in order to gain

**"I've been able to make multiple connections, like with the governor."
-Jordon Monk ['19]**

experience and develop life long connections. The internship is a three-year apprenticeship, and it ends in May the year after graduation," said Jordan.

"The company has the opportunity to either hire me as a full-time employee or end the internship."

Jordan is currently employed with Arrow, an engineering and manufacturing company. Gaining his desktop A+ certification through Mr.

Ryan's CE Computer Courses, Benjamin is currently working as an intern at Home Advisor.

"My background in IT is based mainly from school, but I've also learned a lot from my job too," stated Benjamin. CareerWise Enrollment opened in January, allowing more and more students to start their journeys. All in all, CareerWise offers some great internships and apprenticeships, allowing students to expand their network and skill set.
