

HUSTLE AND HEART SET US APART

Flag Football team strikes again.

The flag football team played in games from Sept. 17 to Oct. 27. There were many games against different teams throughout the school district. The flag football team was made up of both, 6th and 7th graders and was the largest team so far. "There was a total of 96 students in flag football this year," Mr. Bouquet said. Mr. Bouquet was one of the 4 coaches. Mrs. Temple (C), Mr. Carlile (B), and Mr. DePinna (A) joined Mr. Bouquet on the field throughout practices and games.

1. PAYBACK

Ansel Honke (7) plays in his flag football game, as he gets ready to run their offense, Oct. 27. Honke played the position offensive guard. "My favorite part was when I got knocked over, so I got up and knocked him over," Honke said.

2. READY, SET, GO

Austin Lucius (7) plays in one of his last flag football games, patiently waiting for his teammate to throw the ball, Oct. 22. Lugus played quarterback and center and enjoyed playing flag football for the school. "My favorite part [about flag football] was hanging out with friends," Lugus said.

3. REACHING FOR SUCCESS

Jackson Harris (7) blocks for his teammate while playing against Castle Rock Middle School, Oct. 22. Harris enjoyed playing flag football and plans on doing it again next year. "My favorite part of flag football was interacting with others," Harris said.

COMPETITIVE MIND

Bhavya Surapaneni (8) works on her worksheet in Math Counts, Oct. 29. Surapaneni has done Math Counts for the past two years and wants to compete in this year's competition. "My favorite part of Math Counts is probably spending time with other people that also enjoy math, because it is really fun to learn math in an advanced setting with other kids that are good at math," Surapaneni said.

MATH SKILLS

Davyn Timbang (8) works on his math skills by completing a worksheet, Oct. 29. Math Counts is a safe environment where students aren't afraid to mess up. "My favorite part about [Math Counts] is the community. There are many people that helped me when it came to math. I also got to meet many more people from different grades," Timbang said.

HIGH SCHOOL VISITOR

Jamie Kim (8) works in Math Counts trying to solve problems, Oct. 29. Kim is in an advanced learning program where she goes to Rock Canyon High School for math class. "I like learning about math with my friends and competing," Kim said.

BATTLE WITH A BOUNCE

8th Girls Basketball Plays Against Cresthill Middle School.

The 8th grade girls basketball team rallies against Cresthill Middle School, Oct. 26. The team went on to beat Cresthill, one of their many victories. Rachel Cook guarded the ball as she focused on the hoop. "I really liked the coaches. Mr. O and Mr. Brown were great. I also really liked the girls on the team. They really helped me grow," Cook said. The team went on to win every game but one during the season.

"I like having friends because it makes me feel less lonely."
-Cooper Chase
