**EHS teachers and staff are dedicated to student success**

**TEACHERS AND STAFF** "The best part of teaching is seeing kids improve their skills and grow," said Global Studies teacher Sean Stetler. The 2018-19 school year is his first with Englewood. EHS has nearly 60 teachers and para-professionals dedicated to helping every Pirate succeed. In addition to time in the classroom, teachers spend an average of two hours each day outside of school working on grading and planning. "Seeing kids go from unmotivated to motivated is really amazing. I enjoy showing students a new direction," said Stetler.
