**State Qualified.** After the announcement that the girls' team made it to state, **Emma Wiley '20, Caitlyn Martinez '19, Andy Callas '19, and Bridget Lynch '19** cry tears of joy because of the very exciting news. They had worked hard this season because they did not compete in state last season, and wanted to finish their senior season at state.

# OFF-ROAD BONDING

**Terrific Teammates.** Catching their breath after the State meet, **Emma Wiley '20, Jenny Torres '20, and Jocelyn Farhar** congratulate each other. Jenny showed support for her teammates by embracing them after their race. **Switching Course.** Before running in the St. Vrain Invitational, **Caitlyn Martinez '19** noticed that the course had changed since last year. **IncogNEATo.** The boys team distracted their rivals by wearing their old jerseys, while their teammates, **Max Brown and Alec Shields '20** watched them race.

# THE MEET *mentality*

**A Runner's High.** Each runner has a different mindset that they go through before, during, and after meets. **Maren Harding '22** describes her experience at regionals as, "really exciting finding out I made it to state because I know it was a really hard race for everybody. We were all super thrilled to be able to make it to state because the girls team didn't make it to state last year." Making it to state is a big accomplishment a cross country runner can achieve.

**Fight to the Finish.** Starting the race strong, **Michael Leoni '20, Peter Van Cleave '20, Jacob Crookston '21, Sean Hawes '20, Evan Mills '22, and Blake Robinson '20** compete in the State Championships. No one ended up making it to the top ten; however, Jacob came in 45 and Evan came in 36 out of 160. The boys team finished 11 of the 20 teams.

**WannaBEES.** Throughout the season, the boys wore their jerseys that resemble bumble bees. They also decorated their arms and legs for various meets with paint. At one meet, Blake, Peter, and a few other runners wrote their Instagram handles on their arms. "I got like ten followers from people from random schools and then they started messaging me and it was kind of weird," Blake expressed.
