

Student involvement with Rampart Coverage of COVID 19

Over the course of two weeks, all KRAM students had to interview a family member, have the family member interview the student, film 6 B-roll shots, and write a voice over. The student leadership picked the best shots, interviews, and writing to go into the final piece. Every student named either had the best interview framing and sound, best b-roll, best voice over, or contributed to the editing using Adobe CC in the cloud.
