

**Hiking In Estes Park** Tilly Colwell (12) looks over the mountain on a November trip with the Outdoor Club. "My favorite part of Outdoor Club is being in the wilderness because it is a place I relax with my friends and make new friends. The outdoors is a very special place that should be appreciated and taken care of," Colwell said. Colwell's favorite thing to do outside was hike 14'ers. *Photo courtesy of R. Garcia-Ellis*

**Hiking the Rocky Mountains,** jumping off 50-foot high cliffs at Paradise Cove, drinking our favorite slushies in the Sonic parking lot, **this was our place.**

We drove to Chick-fil-A rushing to pull up the app to mobile order, trying everything on the Dutch Bro's menu, **this was a place we will all remember.**

Everyone had a place to call their own Grizzly Rose, Estes Park, Dion's, Daniels Park, Pepsi Center, and sometimes Third Bridge if you were looking for a good scare. **We were brought together in Colorado.**

**We were there** exploring downtown, watching sunsets, visiting Red Rocks, and living our best lives. Even to spending the last month of school at home on Zoom calls, we will never forget colorful Colorado.

**Go explore there.**
