

YOU'RE HERE MAKE IT WHAT YOU WANT

YOU'RE HERE. You show up. Walk into the school greeted by high fives. There's always someone there to greet you. Whether it's your first time ever or your last first day, you know something is always happening here. **Get the full picture on page 2.**

YOU DO. You volunteer for the cheer and football car wash fundraiser. Or sign up to be an Advisement rep. You come up with ideas for projects and try to get everyone on board with your Capstone. Anything to make something happen. **Get the full picture on page 4.**

BECAUSE YOU BELIEVE. You start going to the games because softball is on a win streak. Come to think of it, so is football and boys soccer. That must mean something is changing. **Get the full picture on page 6.**

EMPTY HALLS. The front lobby sits empty after the COVID-19 pandemic leaves students to do online learning from home. The rush to keep everyone safe added more uncertainty to the end of the year. "[This year] is ending a lot faster than I wanted it to," Alison Landa Murillo (12) said. "But, I got to make really good friends and even became someone underclassman could talk to when they needed someone." **Photo by S. Yanes.**
