

# KEY CLUB

## New Year Same Goal

Alamosa High School takes great pride in all of their clubs. Key Club is no exception. Key Club is a group of students who all have one goal: to help build and create a more positive community. The President of this club is Unique Ross, along side her is Mrs. Willett, without them this club would not be possible. Mrs. Willett does everything she can do in order to spread her passion of helping others to a new generation. These leaders, with many others, help this club meet all of their goals. From the fall pep rally to the spring pep rally and many other leadership conferences, this club is able to benefit the school and community that much more. These members have done everything they can to help spread positivity, from volunteering at senior centers, writing motivational messages to other students and doing fundraisers to raise money for multiple organizations. They do these things out of the kindness of their hearts and to put a smile on someones face. These students are constantly trying to discover more ways to benefit as many people possible. Members in this club all come together including Freshmen- Seniors, to the jocks and the brainiacs just to spread their passion of helping those in need. This club has a bigger picture in mind. Although others may view it as "small tasks" they are all doing their part to spread kindness to their community. Members are not concerned about the "title" of being in key club, they are more concerned with leaving their mark and hoping to inspire others to do their part in the community as well.
