GET YOUR HEAD IN THE GAME

the lions bring a new aim to their game

This year the Lions worked their way through the season with one major change, a new quarter back. Edward Cornetet (11) worked hard to lead his team towards some successes on the field. Cornetet described the season as, "...a really interesting experience playing a new position, but I am glad that I got this opportunity." With some heart breaking loses under their belts the lions pulled a first in spirit. No matter the score, excited lion spirits soared high, cheering each

other on and encouraging their fellow players on the field. Coach Martinez worked tirelessly with his team to help them progress in their personal skills. Nathaniel Padilla-Martinez (12), stated, "It has been a really fun experience. We ain't the best squad but we have each others backs and love being part of this family." For many players, a good coach can make all of the difference in how they experience the game. Lions famously play for their love of the sport and each other.
