The Innovators of the New Generation

7th and 8th Tech Class work with different stations

1. Clay the Coder

Gavin Clay (8) is in 8th period technology class, Nov. 1 Clay tells about the activities in technology. "In technology class, we code. My class gets to use fancy computers and we worked on 3D printing," Clay said.

2. Let's Get to the Music

Vance Fraijo (8) (right) works on his project in STEM, Nov. 1 Fraijo is in the 8th period technology class with Mr. Randolph. "The DJ project was the best one so far because we got to experiment with different sounds and codes," Fraijo said.

3. Gaming to Educate

Riley Henson (8) plays Minecraft for one of his projects in the STEM, Nov. 5. He spent his time playing games for class work. "We were playing Minecraft because it has programming in it, and it allows us to learn more about the process it takes to code something in a game," Henson said.

1. Up and Running

Mr. Randolph helps two students fix a problem in World of Goo on their computer, Nov 4. Randolph enjoyed helping his students. "I would have to say Adobe Illustrator is my personal favorite. My students are an amazing group and I'm excited to work with all of them," Randolph said.

2. Partners in Code

Preston Miller (6) (left) and Tyler Hutchison (6) both start working on Zoob blocks in class, Nov 5. The boys liked the Zoob blocks because they had so many options of what to build. "I'm excited to work on Adobe Illusator with my partner," Rolsten said.

3. Snap Circuits

Emerson McDonald (6) (left) and Roey Hastings (6) start their first project by working on Snap Circuits project in technology class, Nov 5. McDonald enjoyed the project but was excited to start others. "I'm very excited to work with my parterner on these projects but am especially excited about working on Abobe Illistator," McDonald said.

World of Multimedia What Happens in Room 139

1. Ready, Set, Film

Espne Kaul (8) (right) prepares a script for his podcast in the NHTV film room, Nov 4. Kaul has been in multi-media for two years. This is the first year the Colorado Student Media Association included a podcast in the annual CSMA contest. Rocky Heights Middle School placed fourth in this contest while also competing against high schools. "I joined multi-media because I wanted to be part of the school's daily news," Kaul said.

2. What is It?

The equipment in the NHTV room is what makes this class unquie, Nov. 4. Some of the equipment in the room includes cameras, lights, microphones, and tripods. It is expected of the class that the materials are taken care of. One student in Mr. Bouquet's multimedia class, Jaiden Shirley (8), appreciates this responsibility. "I feel very privileged to be able to have such amazing equipment in the NHTV room," Shirley said.

3. Freedom of Creating

Carson Szilagyi (8) uploads his project to the computer, Nov 4. In the past, Szilagyi has liked to edit videos on his own time. "Creative Freedom is my favorite project so far this year because I enjoy the freedom of doing any project we feel like," Szilagyi said.
