

A cappella voiceover script
Isabel Harrison

This year, due to the pandemic, rampart choirs have unfortunately not been able to do their annual concerts.

However, Ramparts a cappella club has still been practicing, and the members have come up with a new way to make their hard work pay off.

In order to safely perform with social distancing, the club recorded each of their voices separately and mixed them together afterwards

The club has done all they can to continue singing, but they still hope to get back to work like normal as soon as they can

If you would like to hear the clubs first recorded song, walk me home by P!nk, there will be a link to the fall song in this episode's description, this has been Isabel Harrison reporting for Kram
