Opening: With the beginning of the pandemic came the closure of the Capitol theatre, along with many other businesses across the country. It was unclear upon closing when they would be opening again, as there are many factors to consider before this can be decided.

The Capitol Theatre has been a big part of our community since its construction and opening in October of 2002. Its inviting outer facade and welcoming interior has been a cheerful destination for locals and visitors of all ages for years. Members all throughout our community, including its current employees, have fond memories and experiences with this fan favorite.

With the closure of our local theatre, we also see closures of theatres across the country. Although many of these small cinematic businesses may want to open right away, the pause in the production of movies has added another level of difficulties that may have been looked passed.

- Owner's take on this

People all across the world are anxious to see when the movie industry will start back up in full swing. Particularly, members within our little community all seem to have one main question on their minds. When will our beloved capitol theatre be reopening?

Throughout this pandemic, the joys of cinema and movies have kept us going and in good spirits. When the capitol theatre opens again, and it will, it is our obligation as a community to support our local small business that helps bring these movies to life.
