

## Senior Video Preview Student Commentary

Each year we have two senior editors collect all the footage from the year to make a video yearbook for the senior class. The yearbook itself is not finished yet, but one of the editors, Katelyn Zaiger made a promo for the video yearbook using footage for every event this year. This wasn't a lot, since we had much of the year virtually, and many of the shots were done with cell phones, but it's still a good example of what our program produced over the year for the school community.
