

# 094 **Ef·fi·ca·cious** capable of producing desired success

## Persevere & Play

*Masked Up and Ready to Go.* The team reflected on their best games that season, and the majority agreed that their favorite game was when they played against Kent Denver. **Alex Walker - 22** elaborated, "If I could only pick one game, my favorite game this season would be our game versus Kent Denver because even though it was challenging, we fought hard and worked together as a team and we won in the end." Whether the team was winning or losing, athletes **Jackie Michalski** and **Maggie Storey - 24** fought hard and played as a team. **Emma Parker - 24** described, "The team this year had such amazing chemistry. Everyday that we spent together was a bonding moment for us. I think specifically one thing that helped us become closer were the team huddles at the end of practices and games. We would always leave with a different mindset ready to play the next day."

"My mom inspires me to keep playing sports. She pushed me into sports when I was little and now I love playing basketball and playing with the team. I also love getting to know all of the girls on the team. They are all super nice!"  
**Layla Archibeque-Fischer - 24**

"Kobe Bryant. He was such an inspiration to the world and did amazing things. He inspires me and makes me want to chase my goals and dreams."  
**Sam Duncan - 23**

# More Than a GAME

Winning and losing does not always determine whether a game is good or bad. In fact, for **Jordan Neely - 22**, the best game for her was "the Prospect Ridge game where I hit my career-high in a game that scored 19 points. Despite the loss it was probably one of my best performances on court." Personal goals are also taken into account when determining the success of a game. **Emma Raeburn - 22** said that her favorite game to play "was the Kent game because this is my first season coming back from injury and I felt like that was the game when things really started to return to normal."

**Play as One.** Team bonding is one thing that is not being affected this season. According to **Tatum Boyles - 22**, "Winning games we were bonding, losing games and going through the heartbreak together was bonding. Teams go through thick and thin on and off the court with each other." Athletes like **Makayla Kinard - 21** were able to bond with some of their younger peers like **Dani Jaramillo - 22**. Dani reminisced about "moments where our team bonded. The best times would be when we all come out of practice together with the boys and we would hang out in the parking lot all together just having a good laugh."

"Alex Morgan. She is a hard worker and a really good role model for women's sports. She plays soccer and she inspires me because she has fought for women's sports and was one of the players I looked up to when I was younger."  
**Helen Stegner - 23**

"Kobe inspires me because he had a lot of confidence in himself and he too was a very good player and was never scared to face anyone or any team no matter how good they were. He inspires me to always be confident in myself and take risks during games, even if I feel I might fail."  
**Izzy Villegas-Sisneros - 22**
