

do your OWN COOKING

With the temporary closure of school, kids have been left to their own decisions when it comes to lunch. Some cook their own meals! Other students liked to go out for meals. Yes, that includes Starbucks and Dunkin. Students in FACS class cooked their own meals. Students in quarantine cooked their own meals just to keep them busy!

"One time I saw a video on cooking, and I thought it was the coolest thing ever. Turns out it wasn't. Making a microwavable cookie is not as easy as it looks. When I opened the microwave the entire room basically turned black, but it was still fun," Madison Marsh, 08, said.

Come Eat Lunch

There is a very large variety of different foods we like. Some of us like to bring a lunch from home and some like to buy it. Either way they are both great.

"I pack a lunch similar to this everyday. I do this because it gives me a good variety of food I like."
Tate Justis, 08

"Bosco sticks are my favorite school lunch. I love them because they have warm melted cheese inside."
Braeden Iding, 08

"This sandwich was made at home. I was running late to school and my dad whipped up my sandwich for lunch."
Kelsie Laws, 08

ask the EXPERT

"I was wondering if you were able to tell me something about the food you make and why you decided to teach others."

"Cooking is a basic life skill that I enjoy teaching. From recipe successes to recipe failures, students are always learning and growing in my class."
