

BOAT PAINTING

For the second year in a row, the graduating class at AHS got to repaint The Boat in the commons. Sitting on The Boat is an exciting privilege for seniors, and painting The Boat is a collaborative way for seniors to leave their mark on the school.

This year, this tradition was extra special for the class of 2021. The seniors were stoked to be able to keep a senior tradition relatively normal. The seniors painted The Boat black and added a collage of senior photos. On the top of The Boat, senior Hunter Love created a special work of art for her class.

"The seniors this year weren't really able to be represented or put their stamp on anything. I was glad to be apart of putting our stamp on the school," Love said.

Senior Amanda Simeone helped glue the photos to The Boat.

"It was a super cool experience to get to spend time with my classmates and look at pictures from some memorable experiences from our time together," Simeone said.
