While fashion is cool, the shoes show all the emotions. They show the heart, the style, and the personality of someone's outfit.

Unique shoes show all the emotion. Some are comfy, and some are for looks. And some, you love, but never have the right outfit to wear them with.

ask the EXPERT

"Why do you choose to wear demonia shoes with most of your outfits? Why do you like them?"

"My shoes can really pull my outfits together, and because my outfits are dramatic, I have to have matching shoes. I love looking different from everyone else and I love wearing clothes not many other people wear at school. My shoes make me stand out from basically everyone else and bring a lot of attention to me, which I don't particularly love, but I don't mind it."
