

CLEANERS OF THE PACK

Often times when students or visitors walk through the clean halls of Vista Ridge, they never really stop to think whose behind all of the sparkles and shine on the windows and doors. Vista's maintenance crew is a close-knit team who have made Vista one of the cleanest high schools most have ever seen. **Mirsada Dzanic** finds comfort in her staff and describes them as amazing people who take her on new adventures while also always having her back. Although COVID-19 has changed many of the procedures from the previous school year, she has been helped by her staff along with student volunteers to keep Vista clean, healthy, and safe from the pandemic.

1. **Sarah Edwards** is sanitizing the doors after school to make sure students and staff have a safe environment to learn and teach in. 2. **Theresa Matthews** goes through the halls after school to spray down anything and everything that was or may have been touched. 3. **Christine Colombo & Tyler Poulos** get ready to disinfect the school after everyone leaves for the night. 4. **Jeremy Dreher** likes to have fun and make everyone smile while doing his job.

IN IT TOGETHER

“ Having an awesome staff I can count on all the time makes me proud to be at Vista. They make my job so much easier, it doesn't matter what I am working on. ”

Mirsada Dzanic
