

Program Editing/Direction / News Entry 9/30/21

Our staff was especially proud of this episode as the walk out coverage had a turnaround of a day or so before airing. It was all filmed on a single day and edited the next. The rest of the coverage was also balanced well, but with such a journalistically important moment like the mask walk out, and with the timing being important for immediacy, this episode really showed what KRAM can do when called on for a breaking news story.
