

Relishing Our Days

Walking in as Freshman and leaving as Seniors, has been an experience. It was one day where we were told that we were having an extended spring break as sophomores and now we are expected to walk across stage to get our diplomas and go out into the world by ourselves. Such a scary thought, but one many people have faced. The memories in these walls, the assemblies in the main gym, the experiments gone wrong, and the walks into each classroom, are each a special memory and a highlight of these great men and woman. This school has given these seniors a torch to light into this world, and a zest for new beginnings, to wherever it takes them.

Teacher Cadets

Future Helpers

Miranda is never a step short from helping and leading fellow students. She has Teacher cadeted every semester of her senior year and even was drum major in marching band.

Miranda Schroetlin '22

"I've never appreciated music until I started cadeting at the middle school. Honestly, they're the ones who taught me how to a better person. I wouldn't trade them for anything.

Zoria Hinton '22

A Moment

In the Limelight

It takes one moment... one moment for an entire life to change. Sometimes good, sometimes not, but for everyone, it the moment before walking across the stage, a final paper to say, "I did it." Their legs will shake, their stomach will be queasy, but their feet will march them across the stage and they will be proud to do so. These seniors walked these halls, through sweat and tears, but the final moment will be May 28, 2022, These strong and resilient people will enter the world of adulthood and do many great things! Many people have chosen college as their next step. Miranda Schroetlin chose Mesa University as her next adventure, Zoria Hinton chose Radford University of Virginia. But college is not for everyone, Kyle Deck chose to enlist as his next step. So many others chose their paths and paved the way to their futures, with dignity and grace, with a hint of excitement. But It is never easy to say goodbye to one another, or the place that gave us knowledge, let alone the teachers who guided us. "Growing old is inevitable, but growing up is optional." Never forget to let your inner child have fun every now and then, but never forget where your roots were planted. Our seniors say goodbye to Woodland Park High School, and join the rest of the world, for their futures.

TRIM LINE

When you first walk in the high school doors, the first thing you think is, 'how the heck am I going to find my class.' And anyone you ask will tell you, that they have no idea what room number is whose. You never remember the number but always the teacher. And that doesn't change when you go throughout the years. You wander the halls, trying to decide which door to take to your future. And sometimes you will sleep in class, or skip a day, that's just part of high school, but it's the words of wisdom and the kind hearts of the teachers, that help guide the students to success. And as the class of 2022 count down the days til they graduate, they create memories that last a lifetime.
