"A ton of mixed emotions, so much happiness for winning something that hasn't been won in years."

"My last year at middle school and we won districts as a team so it feels really good."

"I'm proud of the team, especially the gold medalists and the people who helped with their best efforts."

COACHES SHARE THOUGHTS ON WINNING SEASON

Imagine being the coach of the very first group of EMS wrestlers to take the district trophy home. Euclid's coaches don't have to imagine it. It was the reality this year.

Euclid's 7th and 8th grade wrestlers won the 2021 districts tournament.

The head coach, Mr. Haskell, is really proud of the team and says that their hard work has paid off. Mr.Haskell's best piece of advice to wrestlers is to "make sure you listen when your coach is teaching you a technique because techniques will take you farther than raw aggression."

Coach Flynn said, "When the team wins it validates the wrestlers of their hard work."

The coaches worked to keep the team focused. "Speaking to them honestly, also respect both ways is key," he said.
