

"My favorite part is Friday when you guys get to do Friday investigation where y'all get to choose your own science project and do it."

-LORI NAUGHTON, STAFF

"My favorite part was making new friends. I am happy I was able to learn about weather."

-NOAH KASSAY, 08

"It was the easiest way to get everyone to cheer for each other. It was wonderful because both people I cheered for won so I felt very accomplished."

-ADDISON ALVAREZ, 08

# BLOCK day EXPERIMENT!

In 8 Tundra we did a lot of fun things. In science every block day we got to do fun experiments, we had a Thanksgiving feast in Social Studies, we could look for Starbucks gift cards in Health class, there was a rock, paper, scissors tournament, and choir carolers came around to sing to classes!

"I think my favorite part of the Thanksgiving feast in Social studies was definitely eating the food. I liked seeing the types of food people brought. My favorite dish was the fruit Jello that Mrs. Rhinehart made."

-RYLIE MARCUS, 08

"It was fun. The experience was exhilarating. Singing made me smile. It made my dimples brighter."

-CILLIAN DWYER, 08

"I liked the pumpkin muffins. They were homemade and they tasted really good. Alissa made them."

-SARA JACKSON, 08

"The science board game project was really fun and I'm glad we put effort in it."

-CONNOR HANLON, 08

"Rock paper scissors was a really fun thing to do during enrichment."

-CHARLOTTE DUNFORD, 08

"Searching for the Starbucks card in health is a fun experience, especially when it's hidden in plain sight."

-BELLA TRIMM, 08

"We never had to sing in front of people unless we want to. It was really fun!"

-OLIVIA STANTON, 08

"I like looking for the Starbucks gift card because it's fun to look for and makes me attempt to work harder and think out of the box."

-JOEY BENNETT, 08

"My favorite part of finding the Starbucks card is people looking in really weird places, like Mr. Murrell's shoe."

-ELIZA VETSCH, 08

"Winning was my favorite part about playing rock paper scissors! I like throwing rock because it's easiest to throw and it looks the most powerful! It was fun when I won!"

-KATYA PAYNE, 08

"The rock paper scissors tournament was fun and chaotic."

-CHARLES SEIBOLD, 08

"I always love doing the experiment and working with others in science."

-EVAN WATERS, 08

"It was really fun spending time with my classmates during that time of year (Thanksgiving)."

-M.J LAXAMANA, 08

If you could teach anything what would it be and why?

"I would teach soccer to people because it is good to share new experiences with others and it is fun."  
EMME READ, 08

"I would teach history because it's easy. I like history because it's easier than other subjects."  
WILLIAM SCHWARTZ, 08

"If I was able to I would teach sign language. The last teacher has really taught me a lot about the language and it's a really fun thing to say to teach and share information about the culture behind it."  
JAYDEN HAWTHORNE, 08

"If I could teach anything I would teach photography because I really like to take pictures and learn new things about camera settings."  
ELLA BATTIN, 08

"I would teach tech repair because I am very interested in technology and I would teach how to repair all the different types of electronics as well."  
CHASE HARNISH, 08

"I would teach something like biology because I want to tell people about how the body works and how to function."  
LILY MCDONALD, 08

"I would teach things having to do with business, like drop shipping, re-selling things like sneakers, or other things to make money."  
JACK BOYD, 08
