SOCIAL WORK

The seniors at Alamosa high School are a wide range of unique individuals. From seniors who want to go into the medical field to those who want to see where life takes them, each individual has lessons that have been learned during their time as a Mean Moose. Every senior has a different plan and goal of where they want their life to go after high school. Thanks to the experiences, environment, friendships and teachers that were gained at Alamosa High School, the class of 2022 now are ready to take their turn and take on the scary concept of life.

IT'S OUR TURN NOW
