

that's my JAM

Do you have a certain playlist that you listen to when in different moods?

"My music taste varies, so I don't have a set taste. I guess when I'm more down and sad I listen to a lot more calm music."

-Raven Wright '23

"80's, especially 80's rock. Mostly because I'm influenced by my parents the most when it comes to music."

-Zachary Nelson '23

"I listen to a lot of pop, rock, and alternative music."

-Dacota Hayes '23

"Oh, gosh. My spotify wrapped was an emo trap. I think it just happened to be what I listened to the most and then some 80's."

-Lindsay Ford '23

"Mostly like a relaxing playlist because I get anxious a lot, that just helps me calm down."

-Dylan Morgan '23

"Probably my throwbacks playlist. I listen to it whenever I go on a car ride, road trip, or just need a mood booster."

-Summer Childs '23
