JUNIORS TALK ZODIACS, TAROT CARDS, AND CRYSTALS

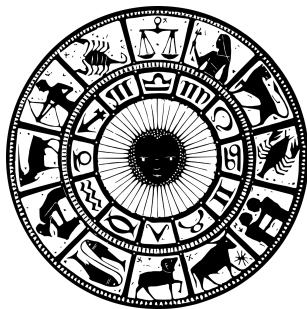

"I recently got into crystals and zodiacs this summer. They're very interesting and unique in their own way!"

[GRACE GARDNER]

"I think the idea of zodiac signs and crystals are nevertheless cool, but from my standpoint they are not very reliable enough to base every emotion, act, and decision on them."

[JULIA DONAHUE]

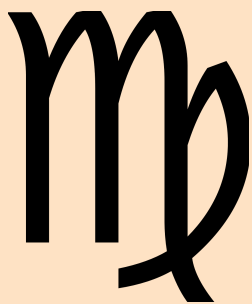

"Zodiac signs are fun to learn about and I definitely believe in spiritual things like tarot cards and crystal healing. I think people make fun of them a lot but it doesn't stop me from thinking they are interesting!"

[AVERY VARVARINECZ]

"Zodiac signs are very interesting indeed. I like to explore the deeper meaning behind them all!"

I'm a virgo and I try not to generalize too much and I try to do research on astrology rather than look at memes and stuff that can be inaccurate but from what I personally have observed is that virgo's tend to be perfectionists."

[SOPHIA STRAND]

"I think tarots are really interesting. It takes a lot of time and effort to interpret everything. To me they're a way of getting another perspective on life in general like going to the doctors you only go to every so often but they give you an update but for others it can be their way of life."
