

## Moment

Life is so full of special moments, full of laughter and tears. Time passes us all by and we move forward. For we all wish for a time machine, to experience that one thing for the first time again, or go back and redo that one test we failed. But we can't take back those minutes, or go back in time and relive those moments. But as people, we make our way through the world making mistakes and learning from them. And every moment doing that is a moment we gain. And we remember those moments, not the days. We grow older and learn new things, and there is no telling where we will go. But as students and as a community, it is our privilege to take these moments for what we can, and relish on the memories made and spent. Because at the end of the day, we remember the laughter and happiness with friends, over the tears of a failed test. These are our captured moments.
