8TH-GRADERS BRING THE FUN, MAKE EACH DAY UNEXPECTED

Saying goodbye to middle school is easy for some, but leaving Euclid's halls won't be easy for the 8th grade class of 2021-22. Even though the pandemic stopped them from a normal experience, this year's 8th-graders didn't let that keep them from enjoying every moment.

"I've had some funny conversations with some kids. You never see them coming," said Mr. Call, who joined Euclid this year as an 8th grade LA teacher.

The 8th-graders had much to look forward to -- high school level classes, heated competitions in gym, new electives such as Around The World, and continuation. As the oldest students in the school, 8th-graders are expected to be good role models for younger Falcons. They still have fun along their path to leadership.

"It's really fun. I always come home with a story to tell my family," said Archimedes Gordon, 08.
