YEAR

“ I feel I have a lot more freedom here in high school, more so than I did in middle school. I like how most teachers are there to help, if it is needed. My favorite staff member this year has been Mr. Manier. He keeps me accountable, and on top of my work. - **Kevin Kuehn, freshman**

“ Everyone in the Conifer lives in a 10-plus mile radius, but we've all learned to become so close. Just since middle school and elementary school it has brought everyone closer since the beginning. I'm so grateful for the community our school has created. - **Jackson Davidson, junior**

“ I'll never forget the large number of people who come together during pep rallies for the soccer bubble competitions. That always put smiles on peoples faces, and I know it's my favorite part of the pep rallies. Just 'cause we all live in the mountains, I really feel that it makes Conifer a community. - **Jared Bohne, junior**

IN THE MOMENT

It's a whole new year for the Conifer Theater Program - new classrooms, new sets, new students, new director, EP Archer. "This year's theater group has made my freshman year a lot better, and all together just made me happier. It all has just affected me in a positive way," freshman Oceana Olsen said.
