

Rampart's bald for bucks assembly is one of the most significant events at our school that took place just recently. While it is an annual fundraiser, Kram wanted to dive deeper into its origin and find out how it came to be such an immense part of Rampart.

Since then, bald for bucks has turned into an event that features our community as a whole, and not just rampart. Student council is responsible for organizing this fundraiser and a lot goes on behind the scenes.

Many of ramparts staff and students participate in bald for bucks by either shaving their head, or cutting their hair. Some of them donate to show their support and try new things, while others partake to honor a loved one with cancer

Shaving hair, or even cutting it can feel like a big change. Kram was interested in hearing what the participants were most excited for, along with their nervous thoughts.

Bald for bucks can be a very emotional time. After the assembly, our rampart students and staff shared how they felt about their new hair.

Bald for bucks has a long lasting positive impact on our community. There are many aspects that make it so special to our district, and Kram asked what some of the best things are.

Bald for bucks will continue to be the very heart of our rampart community. Every donation put towards the fundraiser will weave its way into the lives of those affected by cancer, and keep bald for bucks the remarkable event we know it to be. This has been fiona wachter, reporting for kram
