

STUDENT COUNCIL

WHAT DOES STUDENT COUNCIL MEAN TO YOU?

"Student Council helps to bring student elected leaders together with their peers through organizational activities such as assemblies, hosting Homecoming, and fund raising endeavors. They volunteer countless hours. They may be a few, but they are the voice of their peers. Leadership is the capacity to translate vision into reality."

- Wendy Castillo (AHS Student Council Advisor)

During this school year the Student Council has changed in a new fresh way. As of this year they have a new sponsor. Her name is Wendy Castillo, she looks to push the kids in Student Council a different way from other years. During the school year the students that are involved in this club look to increase their leadership skills. With the help of everyone in the school and the new sponsor this is obtainable. Student Council has helped many students and organizations grow as a community. They always want to involve the student body and the staff in a way to help the school grow as one. The new morals of Student Council try to make the school a different atmosphere for kids and teachers. All the spirit weeks and events that they have hosted this year have been much different from any other year in ways that cannot be explained. During this school year there were lots of different events happening in the school. Student Council made sure that the events were successful and that everyone was involved. Senior Hiral Patel states "This year was more organized than all the other years I have been in Student Council. I think if they keep up the hard work like this year, then the school will have to be recognized for the amazing things that Student Council does for our school. Not even the school, also the community and growing all of us as one."

MOOLAH!

The budgeting committee counting all the sales from the candy grams.

TIC TAC TYPE

Student body secretary Beatrice Yeneza typing out how many community hours each student has during the important homecoming meeting.

EYES ON THE PRIZE

Junior Olivia Tuioti-Mariner focuses on the meeting to make sure everything is going smoothly.
