Power as One. The softball team kicks off the school year with their inspiring team spirit. **Aubrey Cox, Katie Proctor, Daisy Rush, and Hannah Strumpher** all supported each other on the team. "I would say we support each other in every kind of way and we're very positive," Daisy exclaimed. The softball team's camaraderie is unmatched, evidenced by the way the girls became one to have a successful season with the sport that they came together for. "We are really close, we get along really well, and we all know how to have fun and cheer each other up when we aren't doing as well as we want," Aubrey stated passionately.

Hitting off the Season. The creation of the new softball team adds another opportunity for students to compete for the school. "We can bring trophies to the trophy case and provide entertainment for everyone," exclaimed **Aubrey Cox**. With different grade levels all participating, there was a divide at the beginning of the season. However, **Hannah Strumpher** noted that "eventually the coaches started letting us do team bonding activities and I think we got closer." With activities connecting the team together the school has added another moment in history, a newly found softball team!

new vs the Old

"I joined the softball team because I wanted to try something different that I haven't done before. As far as team bonding goes, we have bonded through our games. Everyone is always supportive."
Madi Scoggins

"I wanted to try something new and have new experiences with a new sport and a new team. I thought our season went pretty good, we improved a lot as the season went on and got a lot better."
Katie Proctor

"I have been playing softball since I was six years old. JA has added to my softball experience by learning how to coach and look at the game from another perspective, not just competing but teaching others how to play."
Kylie Fullerton

"I have been playing softball for about five or six years now. I have played for a lot of different teams. JA has made me learn patience in the sport and it also made me make some amazing friendships."
Shaelee Torres

"I liked making new friendships during the softball season. I thought that it was really cool that I got to be a part of the first team at JA and also how I got to play softball again for my senior year. I enjoyed playing the game in general, but mostly I really enjoyed stealing the bases and working with my friends in infield. I played softball for a really long time but I gave it up, so when I heard about the new team they were making, I was very eager to join it. It was a really great way to make new friends and play in a new environment for one last time."
