SOFTBALL SUMMER LEAGUE

A MEMORABLE TRIP

Over the summer, CHS students got the chance to travel to Costa Rica and Panama with EF Tours and Holmes teachers! Signing up for the trip while in 8th grade, this trip was a long time coming.

Sophomore Lucy Berumen's experience, however, had one incident she would like to forget while on the otherwise memorable trip.

One night, it was pouring extremely hard, Lucy said, "I was

running back from the pool, and I ended up slipping on tile. I hit my head so hard." Later that night she ended up going to a small Costa Rican hospital. The rest of the trip Lucy had a pounding headache. Luckily, Lucy still had a fun and amazing experience.

While the hospital may not be the number one tourist destination in Costa Rica or Panama, Lucy will certainly remember her "trip."

PRIDE PARADE

Coronado and the city celebrate Pride

The annual Pride Parade happens over the summer and is a two-day festival that honors the active and diverse LGBTQ+ community. Downtown Colorado Springs throws a fabulous celebration that shares positive vibes, self-acceptance, and achievements.

Coronado formed a new club called S.A.G.A. (Sexuality and Gender Alliance) This club has started a new beginning at Coronado, welcoming everyone. Their goal is to spread positivity and create a safe environment for those wanting to join!

"SAGA makes me feel like we have the opportunity to be ourselves around people who might not have the same interests as we do," said SAGA founder, **Caiya Cook, Fr.**

It's great to have such inclusion in Colorado Springs and at Coronado!

BODIES IN THE NEWS

Students share their opinions on the controversial Roe v. Wade decision reversal

In 1973, the Roe v. Wade ruling found that the Supreme Court recognized that the right to liberty outlined in the Constitution, which protects personal privacy, includes the right to decide whether to continue a pregnancy. Women earned this freedom by fighting and legislating for years.

This summer, on June 24th, 2022, that ruling was overturned. And while most high school students may not feel affected by this ruling right now, many students at Coronado had something to say about it.

"You wouldn't let a teen adopt a kid, but you would force them to parent?" freshman **Naomi Riggs** discussed with a classmate.

The decision does affect many people- whether you support or oppose the opinion. The question of what people are "allowed" to do with their own body can be very polarizing.

Hannah Norton, So.

"SOME PEOPLE DON'T GET THE CHOICE ABOUT HOW THEY GET PREGNANT. SOME KIDS GET PREGNANT AT 13- KIDS TAKING CARE OF KIDS? IT'S NOT RIGHT."

"The overturning of Roe V. Wade takes away bodily autonomy. And that's something that should just come with being born," **William Walker, So.**, asserted while discussing the court's decision.

For it or against it, the court ruling has certainly sparked discussion and given people something to think about for years to come.
