A team's record stands for itself, but at Coronado, regardless of any score, we remain invincible. We persevere and remain strong through hard times. Nothing can change the way Coronado remains one. For over 50 years Coronado has grown into an amazing school with some of the best opportunities for students. Nothing has slowed us down and nothing ever will, because we are invincible.

To **Iram Navarro, Sr.**, invincible means "unstoppable. It's a hard word to use because it's so strong. I think the students here are invincible, there's not much that can stop them."

"Here at Coronado, everyone supports everyone. The moral high ground of the students can't be broken or swayed. There is a lot of support for the athletes as well as the academic departments," said **Adrianna Alicea, Sr.**, who has a big appreciation for her teachers that work especially hard and make connections with their students.

"Having perseverance means going

non-stop. Nothing can get in your way or slow you down. You're always progressing," said sophomore **Cade Hughes**.

At Coronado our athletic programs are invincible. No matter the team's number, their bond is strong. They take care of each other and persevere as a team through the toughest battles. Having perseverance and being invincible requires confidence in yourself. Not letting anything break you down, and continuing to get back up when you fall down.
