

STUDY SESSIONS

Jake Fricke tutors Derek Thong and his friend during finals week. Many students came for help on their study guides and to prepare for their upcoming exams. It was a huge success for both students and teachers, increasing student's overall grades.

"I wanted to give our students help, and what better way to get help than by other students that had that class? I love when students and teachers tell me that getting tutored made a huge difference," comments Mrs. Ramirez.

Paige Dickinson states "I got the best job. I get to see both parties get better, and I really like working with high schoolers. You guys are such a fun group."
