

LEADING THE WAY TO SUCCESS

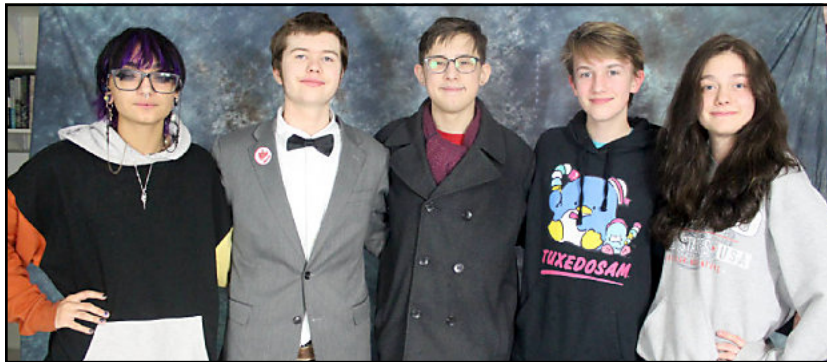

Mr. Craig Seay
Odyssey RISE Robotics
Sponsor

Ms. Andrea Aragon
CHI, CGSP
FCCLA Chapter Adviser
Hospitality Pathway

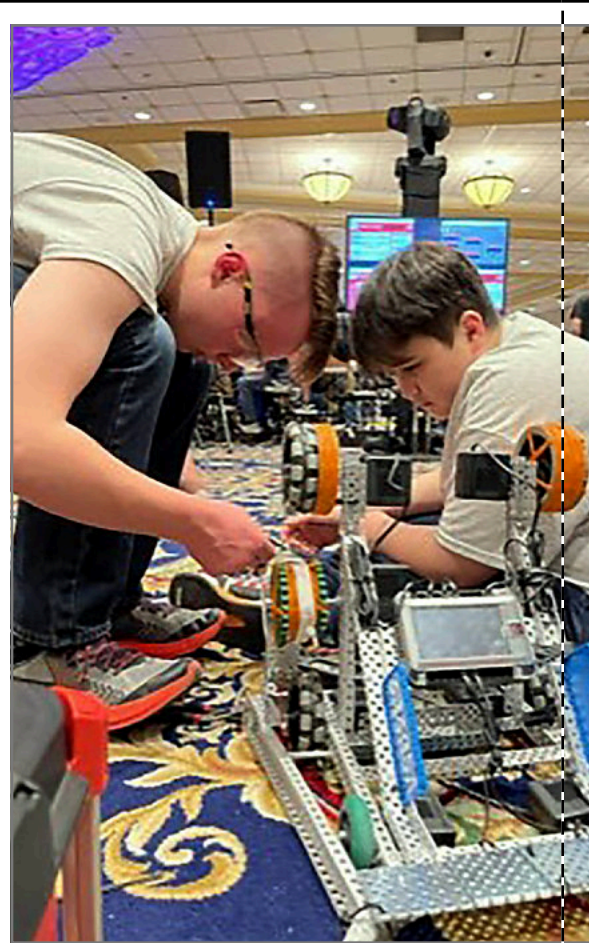

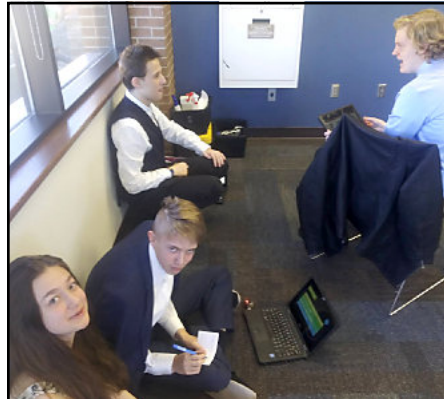

Dr. Keith Clayton
Business Ethics Adviser

ABOVE Sammie Coker (9), Jonah Chandler (10), Bishop Owens (11), Benjamin Trumbly (9), Keira Potter (9) were members of the Business Ethics Club this year. The Business Ethics team competed at a variety of universities in Colorado. Each competition allowed them to show their talent at reasoning and presenting.

RIGHT Taking a moment to relax Sammie Cocker (9), Benjamin Trumbly (9), and Bishop Owens (11) review their presentation with another competitor. Students were able to work together and support each other at the competition.

BEE-GEE THE ROBOT

Odyssey RISE Robotics

The Odyssey robotics team competed at the state competition at the Broadmoor Hotel after winning previous competitions. This was the first Odyssey robotics team which made their wins even more important. Their 20th place ranking was unheard of for a brand new team. Mr. Seay was extremely proud of the team members and their dedication to the tasks required to go to the competition as well as what transpired during the competition. The members were professional and classy which made them stand out from the other teams.

PROSTART

Mentors from the industry Jan Whittle and Ben E. Keith came to Odyssey to help and teach student cooks on how to plate, prepare dishes, and manage time for competitions.

TRIM LINE

TRIM LINE

LEFT Julian Bedoya (9), Megan Robards (12), Anthony Bruszewski (10) work together to prepare for a skills round of competition.
BELOW Gavin Smith (9), Megan Robards (12), Tierney Norman (9), Domingo Chavez (9), Romarley Benjamin - Rios (9), work on the coding of the robot's autonomous function.

COMPETITIONS

Sportsmanship was the name of the game and Odyssey kids were scrambling to the finish. From races against their fellow students to entirely other schools, Odyssey always maintained professionalism and fun and safe environment. The competitions were held in classes, career pathways, and even clubs. The students celebrated many ups, and many downs but no matter what they kept up the school spirit. They made many memories for Odyssey's history that will sure to be remembered.

ABOVE LEFT Domingo Chavez (9) and Anthony Bruszewski (10) work together to repair the robot.

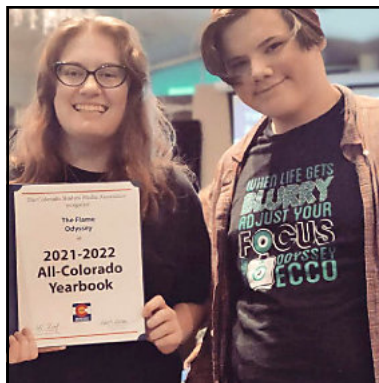

ABOVE RIGHT Megan Robards (12) and Romarley Benjamin-Rios (9) test the robot autonomous function for putting the yellow discs into the competitors goal.

LEFT RISE Robotics had a Christmas Picture taken for distribution to their sponsors.

TEAMWORK IT TAKES ALL OF US

The robotics competition focuses on teamwork. Each team is paired with another team to form an Alliance. That team is not from your school. Each alliance competes to earn points which moves them to the qualify round. At that point, the team gets to pick their alliance members and competition moves into the elimination round. From there, the teams compete for the final bracket in a tournament style competition to win the state competition.

ALL-COLORADO

#1

The students who were part of the 2021-2022 yearbook won the ranking of All-Colorado at the state student journalism convention. This ranking is the first time Odyssey has won this high of an award.

Elizabeth Burt (12) and Canaan Owens (11)

beamed with pride as they held their certificate from the award they received.
