AP STATISTICS

GRAYSON WILLIAMS, 12

"I'm taking AP Stat because the college I want to go to is making me take their own calc course and it made no sense to retake calc in college so I figured I could pick up some data analysis skills. The workload is moderate, typically about 4-5 textbook problems per class."

AP CHEMISTRY

MADELINE PFANSTIEL, 11

"I have taken three AP classes. The hardest one is AP Chemistry. I'm taking this class because I love Chem [and] I think the workload is manageable. I really enjoy AP Chemistry."

AP PSYCHOLOGY

MATTHEW HEINE, 11

"I'm taking it because I feel it'll help me with what I want to do in life."

AP STUDIO ART

ASHLEY BACLAWSKI, 12

"I wanted to challenge myself as an artist and be able to take a year long art class. The workload is fairly challenging. There is a piece of art due every other week. I do enjoy this class because it is a smaller class, all the people in it are super awesome and I get to make art."

AP ENVIRONMENTAL SCIENCE

MASON OLIVA, 12

"I wanted to challenge myself because I need to learn to struggle through hard things in life. The workload is not much more different than other classes."

AP U.S. HISTORY

KELLEN MCGARVEY, 11

"I'm taking it because I'm good at history. It's decently hard, just got to do your homework."
