The Work Behind the Scenes

KUGR TV creates weekly YouTube videos to show what's happening in our Cougar hallways and to provide important information to our students. In an interview with **Mathias White, Jr.**, he informed us that they "do a lot of script and play writing as well as learn video production."

Mouhamadou Tall, Sr., stated that this class "is a very exciting class where we spend a lot of time brainstorming creative ideas since the classes are so long. We plan our script beforehand but it gets changed a lot as we are filming. Most of our jokes come on the fly."

All of Coronado enjoys these weekly engaging videos spreading augs around the school.

"I love KUGR TV not only because of my passion for video production, but because we're all one big team, I can always rely on my classmates to help me out when I need it."
