Vol. 108 Edition 2

A Sign Of The Times

pears to be one of the greatest yet scariest times of our lives, for sure.

There are so many obstacles, good and bad, that us students must go through to become certain versions of ourselves.

The highlights start with attending Friday night lights, cheering your peers on in the rowdy crowd, hanging out in the parking

lot each evening, going to school dances, and the list continues to go on for ages.

All of these great things also come with bad which may include long stressful nights of studying and homework or even being anxious for a sport or club event, but the stress eventually smooths out.

AHS Senior, Elia Zamora states, "High school is

a series of obstacles that challenge us as students and gets us ready for life. Then, graduation is the end of the course so we start a new one!"

The important thing to remember though is that you will never relive these moments again, so you should enjoy it! These are the moments that will live within us, forever.

Softball History Made

Raelee Alonzo
—Co-Head Editor—

After a great Moose Softball season, with a record of 13-10, history was created as the girls made state for the very first time ever.

With the successful season they had, their hard work most definitely paid off.

The team bonding between these girls is unreal as they have unconditional love for each other.

Leading the team was head coach, Dom Lomeli and assistants, Casey Miller, Tony Kechter, and Oscar Molina and five amazing seniors.

After losing to Strasburg in the big 3A competition, the season came to an end.

Even though they didn't get the outcome they had hoped for, the lady moose were grateful for the opportunity to make history and take their team to the state tournament.

Each day, I try not to reminisce on how fast time is going by. It's extremely hard to believe that we are already entering November and the classic holiday season.

The first quarter of the school year ended almost an entire month ago and before you know it, the second quarter (and semester) will be over too.

The days seem to drag on but looking back, the weeks truly fly by. The fall and Thanksgiving season is rolling up on us quickly.

Many students here at AHS are counting down the days until they get a week to do nothing but relax and grub!

This break is very beneficial to both students and teachers to have some time for a brain rest and some mental refreshments.

High school is such an emotional roller coaster that is hard to even explain. It ap-

AHS Fall Coloring Contest

Jenelle Hernandez
—Co-Head Editor—

With the fall season in the air, Alamosa High School gets into spirit with a coloring contest!

Students were given the opportunity to show off their creative coloring skills in hopes of winning a prize.

The coloring contests held here at AHS is one of the events that the students love participating in. This not only gives students the opportunity to participate in something they all know how to do, but also the chance to just chill out and relax.

Coloring offers a sense of relaxation and is often many students favorite hobby. By our school offering a coloring contest, this is not only giving us something fun to do, but an activity that can overall help mental health. Dayzha Cruz, a Junior at Al-

amosa High School states "I feel like the coloring contest is a nice and easy way to get everyone involved in school.

I feel like everyone likes coloring so it's easy to do and anyone can be involved. The school should keep doing things like the coloring contest."

The coloring contest theme was fall and Halloween and many students really got to show off their creativity within their coloring pages. Each student showed just how unique each of their coloring pages were.

I feel like the coloring contest was a big hit! It was really great how every student was able to get involved and participate because this was an activity that everyone can do.

Each coloring page entered in the contest were judged, and the students that won were given a gift card. The coloring contest really brought all the students together.

Moose Fall Q&A

Coach Edition	Coach McQuitty	Coach Sandlin	Coach Annie
Favorite Fall Activity?	Cross Country	Watching College Football	Volleyball
