STUDENT LIFE

# FAMILY NIGHT

At Odyssey students are prioritized as family.

The administration took the night to make sure those who wanted to come to Odyssey had a chance to see what our school was all about. Dean of Students, Dr. Michael Lamphere, talked about a phoenix burning itself to ashes and rising up, burning brighter than it was before. However, he admitted that when he was beginning at Odyssey, he scoffed at the phoenix. Thinking it was cliché and trying a bit too much. But with his time here and seeing many students and their families Dr. Lamphere had this to say, "It's about embracing the process. Sometimes you need to surrender yourself to something to experience it. When I talk about the burning phoenix rising from the ashes, that's what this place is about. Life is something that you drink and embrace fully. The last thing you want to do is remember back to your life and think what if? Right now, think why not. It's gonna be good. It's gonna suck. It's going to make you who you are."

While many students have struggled in other environments, they soar here. We cheer each other on and celebrate all our successes.
