STUDENT LIFE

# Link Crew

Link Crew helps lead our first-year students to the future and sets us up for great success. They help us feel right at home. They are always there for a pick-me-up or to help us find friends Link Crew truly is an aspiring community of people, knowing you constantly have someone there to guide us. It is truly a remarkable aspiration they truly are the bringers of light and just like the elephant they are truly very wise and filled with aspiration some could say they are our big brothers and sisters, but most would say they are our friends they show us that we can be better individuals and all of them are so unique in their own that it builds a phenomenal community, and we know that with them here the possibilities are truly limitless.

**"This is Odyssey's future. we build a close-knit community that holds our freshman AND UPPERCLASSMEN TOGETHER."**
