Why TCR? Momentous Futures

Zoey Rasmusen '24

"I wanted to go to TCR because I felt like if I didn't go to college I at least had something to fall back on after high school. I love like the creative part of it. My favorite part of it is probably the 3D printing"

"My favorite thing about doing Cosmo is meeting new people and making them feel and look good. As a cosmetologist I meet all kinds of new people on a day to day basis and each of them is uniquely different and each have their own stories and personalities to share. As far as end results it's always fun to see how much my clients enjoyed their service and what they look like leaving the salon."

"I signed up for it, it was super easy I had help cause I'm in Ms. Hills program so that was really nice they paid for like half of it. I want to be a veterinarian technician so I'm hoping this will be a nice step to get there. We do a lot of fun things, recently we got to go to a dairy farm and an animal hospital and it was a lot of fun it was really cool to actually be there and see some of the stuff happening and it was really fun."
